EXPERIENCE

Dory Delivery (Food Delivery Service)

Mobile App Developer / Quality Assurance (QA) / Software Developer

February 17, 2025 – May 12, 2025

- Built features in the customer app for Dory Delivery using React Native.
- Developed features in the rider app for Dory Delivery using React Native.
- Created and implemented features in the Dory Delivery website using React.js.
- Conducted manual QA testing to identify, document bugs, and ensure functionality across both the website and mobile app.
- Debugged and fixed issues in the mobile app to enhance performance and stability.
- Integrated front-end components with back-end APIs for real-time data synchronization.
- Collaborated with the team on UI/UX improvements and feature planning to enhance user experience.
- Built and integrated RESTful APIs to ensure seamless data exchange between the front-end and back-end.

Universal Leaf Philippines, Inc.

Technical Staff

July 26, 2025 - Present time

- Prepared and filed invoices, billings, and service reports accurately and on time.
- Managed documentation for maintenance activities and compliance reports.
- Coordinated with colleagues to ensure records and paperwork were complete and up-to-date.
- Assisted in compiling technical data and reports for management review.
- Issued parts and supplies to staff and ensured proper tracking and record-keeping.

SKILLS

Industry Skills

- Mobile App Developer (React Native)
- Web Developer (Front-end & Back-end)
- Database Programmer (MySQL)

Programming Languages and Framework

Front-end Development

- **Languages:** HTML, CSS, JavaScript
- **Frameworks & Libraries:** React, React Native, Tailwind CSS

Back-end Development

- **Languages:** PHP, MySQL
- **Frameworks & Tools:** Node.js, Express, Sequelize
- **APIs:** RESTful API design & integration

Technical Skills

- Microsoft Office: Word, Excel, PowerPoint
- Troubleshooting/Technical Support: Resolving software/hardware issues
- Quality Assurance (QA): Ensuring app functionality and bug-free performance
- Version Control: Git & GitHub for code management and collaboration
- Debugging: Fixing bugs in React Native, Node.js, PHP
- API Integration: Connecting and consuming RESTful APIs
- Manual QA Testing: Testing features and logging bugs
- UI/UX Principles: Improving design and user
- Project Management Tools: Jira experience
- Responsive Design: Creating layouts for mobile and web platforms
- Postman: API testing and interaction
- Agile Methodology: Familiar with Scrum and Sprint planning

Soft Skills

- Adaptability – Comfortable working across different tech stacks and adjusting to new challenges quickly.
- Quick Learning – Fast at mastering new technologies
- Problem Solving – Efficient at identifying and fixing issues
- Logical Thinking – Applies clear, structured reasoning in coding and decision-making
- Communication – Clear, professional collaboration
- Organization – Strong time and task management
- Initiative – Self-motivated to build and learn
- Attention to Detail – Delivers polished and accurate work
- Resilience – Maintains focus under pressure
- Collaboration – Works well in team environments
- Critical Thinking – Makes thoughtful, smart decisions
- Curiosity – Always eager to explore and grow
- Work Ethic – Dedicated, consistent, and reliable
